2023 NYC Resident Survey

FOREWORD

Founded in 1932, the Citizens Budget Commission (CBC) is a nonpartisan, nonprofit think tank and watchdog whose mission is to achieve constructive change in the finances, services, and policies of New York City and New York State government.

CBC initiated and oversaw this research—and engaged Polco to conduct the survey— because a statistically valid survey is the best method to identify how New Yorkers rate the quality of life and the quality of services as the city emerges from the pandemic. This survey largely mirrors those conducted by CBC in 2017 and the City in 2008, which also were administered by Polco. CBC believes that consistent, validated feedback from residents should help guide City priorities and be part of the City's efforts to manage services.

This research was overseen by Ana Champeny, Vice President for Research. This report was written by Polco, which administered the survey, collected and tabulated responses, and analyzed the results. This report, Polco's companion report and presentation, and CBC's final report, can be found at https://cbcny.org/2023-nyc-resident-survey.

The most important contributors to this survey are the New York City residents who took the time to answer the questions posed to them. More than 6,600 adults spanning every borough and representing the city's various populations provided their own opinions. We are indebted to them for their time and invaluable feedback.

Andrew Rein, President

About the Survey and the Results Reported

In 2008, the City of New York Mayor's Office commissioned the NYC Feedback Citywide Customer Survey. In partnership with the Office of the Public Advocate, the Mayor's Office designed the survey to gauge public perceptions of the overall quality of life in the City and the quality of local government service delivery. It covered issues related to quality of life; customer service and access to government; public safety; health and human services; public education; community conditions, such as the cleanliness of streets and sidewalks; transportation, including mass transit; and recreation and culture.

Citizens Budget Commission (CBC) has long supported regular surveys as a way of gauging and improving resident satisfaction with city government and services. In 2017, CBC desired to repeat the 2008 survey, using similar methods, to evaluate the current status of resident perceptions of quality of life and quality of local government service delivery of New York City residents. National Research Center, Inc., which conducted the 2008 survey, was again hired to conduct the 2017 survey.

Again in 2023, the CBC hired Polco (which merged with National Research Center, Inc. in 2021) to conduct a new iteration of the NYC Resident Feedback Survey. Most of the survey questions were kept identical to those asked in 2008 and 2017 to allow direct comparisons, while a few items were added. Survey methods in 2023 mimicked those in 2008 and 2017.

Nearly 126,000 households were randomly selected to receive the survey. Completed responses were received from 6,632 households. Details about how the survey was conducted can be found in *Appendix A: Survey Methodology*, while a copy of the questionnaire and survey materials can be found in *Appendix B: Questionnaire and Survey Materials*.

This report includes data from 88 survey questions capturing resident perspectives on aspects of quality of life and quality of services provided by the New York City government.

Most of these items were evaluated on an "excellent, good, fair, or poor" scale. A few of the safety questions were answered on a "very safe, somewhat safe, somewhat unsafe, or very unsafe" scale and a few on importance were answered on a "very important, somewhat important, not important" scale. One of the items examined asked whether, in the next 5 years, survey respondents planned to stay in New York City or planned to move somewhere else. For this item, the proportion of people who planned to stay in NYC is reported.

The 88 items were placed in six larger categories: The Big Picture, items examining broad overall ratings; Quality of Life: Safety; Quality of Life: Non-Safety; Quality of Services; Experience with City Services and Place Attachment and Reasons to Leave NYC.

The following page displays a summary of the results for all the indicators, with the indicators shown down the left side of the page. The first column shows the percent giving the item a positive rating in 2023. The second column shows the number of community districts in which more than 50% of respondents gave a positive rating ("Satisfied"), while the third column shows the number of community districts in which 50% or fewer of respondents gave a positive rating.

The tables beginning on page 4 present the ratings given by respondents in each of the 59 community districts to each of the 48 items. The proportion and number of respondents are shown.

Appendix A: Survey Methodology

In 2008, the City of New York Mayor's Office commissioned the NYC Feedback Citywide Customer Survey. In partnership with the Office of the Public Advocate, the Mayor's Office and National Research Center researchers designed the survey to gauge public perceptions of the overall quality of life in the City and the quality of local government service delivery. The survey covered issues related to quality of life; customer service and access to government; public safety; health and human services; public education; community conditions, such as the cleanliness of streets and sidewalks; transportation, including mass transit; and recreation and culture.

In 2017, Citizens Budget Commission (CBC) desired to repeat the survey, using similar methods, to evaluate the current status of New York City residents' perceptions of quality of life and quality of local government service delivery. National Research Center, Inc., which conducted the 2008 survey, was again hired to conduct the 2017 survey.

Again in 2023 CBC hired Polco (which had merged with National Research Center in 2021) to conduct a new iteration of the NYC Resident Feedback Survey.

Developing the Questionnaire

For the 2023 NYC Resident Feedback Survey, most of the survey questions were kept identical to those asked in 2008 and 2017 to allow direct comparisons, while a few items were added.

Selecting Survey Recipients

One of the first steps taken to ensure that survey results are representative of the target population is to use a source of resident enumeration from which recipients are selected that provides "coverage" as complete as possible of the target population. This source is referred to as the "sampling frame". For a survey of residents, a list of addresses based on the United States Postal Service (USPS) delivery sequence file is the most comprehensive list of households. For this survey, the list was purchased from Marketing Systems Group.

Since it would be cost prohibitive to survey every household in New York City, a random selection of records from the sampling frame was made. An example that may be familiar is the jar of marbles of various colors. If the jar has two-thirds red marbles and one-third blue marbles, a random selection of marbles from the jar should result in a similar proportion of red and blue marbles as in the original jar.

In 2023, as in 2017 and 2008, it was desired that results be representative at the Community District level. Thus, addresses were randomly selected from within each of these districts.

A goal was set to have at least 100 completed surveys within each community district. The number to be selected was based on the observed community district response rate in 2017, with the assumption that response rates would be lower in 2023 than in 2017. Therefore, a total of 71,972 addresses were originally selected for the survey, with a goal of obtaining about 100 completed responses per Community Board.

An individual within each household was randomly selected using the birthday method. The birthday method is implemented by including instructions in the cover letter requesting that "the adult (age 18 or over) whose birthday has most recently passed" complete the questionnaire. The underlying assumption in this method is that date of birth has no relationship to the way people respond to surveys.

Administering the Survey

The database of selected household addresses was processed for certification and verification, using CASSTM/NCOA software that relies on USPS National Directory information to verify and standardize the address elements and assign each address a complete, nine-digit zip code where possible.

Selected households received three mailings each beginning in September 2023. The first mailing was a pre-notification postcard announcing the upcoming survey. This postcard contained a brief message in English, Spanish, Russian, Simplified Chinese, Traditional Chinese, Creole, Bengali, and Yiddish introducing the survey as well as a URL to complete the survey online. The online survey was available in all 8 languages.

A survey package was sent a week after the pre-notification postcard. These survey mailings contained a letter from the President of CBC inviting the household to participate in the survey, a paper copy of the survey, and a postage-paid return envelope. It also included a URL to complete the survey online. The second page of the cover letter included one paragraph each in Spanish, Russian, Simplified Chinese, Traditional Chinese, Creole, Bengali, and Yiddish explaining the contents of the packet, and inviting recipients to take the survey in their own language on the online survey.

The third contact was a reminder postcard sent about a week after the survey package. This reminder postcard included a brief message in all eight languages with the URL where recipients could go to complete the survey.

Expanding the sample

During the period of data collection, it was decided to expand the sample to assure that the goal of responses was achieved in time. In total, 53,879 additional households were sampled. Each one of the 53,879 received two contacts. The first contact was a survey package, as described above, sent on the first week of November 2023. One week later each household received a reminder postcard.

Processing Returned Surveys (Data Entry)

Mailed surveys were submitted via postage-paid business reply envelopes. Once received, Polco staff assigned a unique identification number to each questionnaire. Additionally, each survey was reviewed and "cleaned" as necessary. For example, a respondent may have chosen two response categories on a question for which only one answer was allowed; Polco staff would choose randomly one of the two selected categories to be coded in the dataset.

Once all surveys were assigned a unique identification number, they were entered into an electronic dataset. This dataset was subject to a data entry protocol of "key and verify," in which survey data were entered twice into an electronic dataset and then compared. Discrepancies were evaluated against

the original survey form and corrected. Range checks as well as other forms of quality control were also performed.

Data from the web surveys were automatically entered into an electronic dataset and generally required minimal cleaning. The web survey data were downloaded, cleaned as necessary, and then merged with the data from the mail survey to create one complete dataset.

Calculating the Survey Response Rate

About 1% of the surveys were returned because they either had incorrect addresses or were received by vacant housing units. The response rate calculated using AAPOR's response rate #2¹ for mailed surveys of unnamed persons was 5.3%.

The number of completed surveys from within a community district ranged from a low of 90 to a high of 152, averaging 112 completed surveys.

Of the 6,632 surveys received, 3,911 were received by mail and 2,721 online; 6,486 were completed in English and 146 in another language.

Table 71: Survey Response Rate

	Overall
Total sample used	125,851
I=Complete survey	6,632
USPS: Vacant	1,432
NC=Non Contact	117,787
Response rate:	5.3%

The 95% confidence interval (or "margin of error") quantifies the "sampling error" or precision of the estimates made from the survey results. A 95% confidence interval can be calculated for any sample size and indicates that in 95 of 100 surveys conducted like this one, for a particular item, a result would be found that is within a certain range if everyone in the population of interest was surveyed. The practical difficulties of conducting any resident survey may introduce other sources of error in addition to sampling error. The margin of error for the 2023 NYC Resident Feedback Survey is plus or minus 1.0%, due to the large number of completed surveys. The margin of error for the community districts ranges from $\pm 10\%$ to $\pm 8\%$, while for the boroughs it ranges from $\pm 6\%$ to $\pm 2\%$.

Despite the best efforts to boost participation and ensure potential inclusion of all households, some selected households will decline participation in the survey (referred to as non-response) and some eligible households may be unintentionally excluded from the listed sources for the sample (referred to as coverage error). Coverage error is very low for this survey, as the USPS delivery sequence file used to select addresses has nearly complete coverage of all households. No adjustments were made to the confidence intervals for design effects.

¹ See AAPOR's Standard Definitions here: http://www.aapor.org/Standards-Ethics/Standard-Definitions-(1).aspx for more information

Analyzing the Results

One of the first steps in the data analysis was to statistically adjust the survey results so that the demographic profile of the respondents mirrors that of the population as a whole. This process is known as "weighting" the data. The primary objective of weighting survey data is to make the survey sample reflective of the larger population. This is done by: 1) reviewing the sample demographics and comparing them to the population norms from the most recent sources; and 2) comparing the responses to different questions for demographic subgroups. The demographic characteristics that are least similar to the known demographic profile and yield the most different results are the best candidates for data weighting.

For the 2023 NYC Resident Feedback Survey, it was desired that responses be representative at the community district level. Demographic profiles of the community district populations were available from the 2021 American Community Survey 5-Year Estimates data.²

The variables used for weighting within community district were gender, age, and race and ethnicity. A special software program using mathematical algorithms was used to calculate the appropriate weights. After the weights were applied within the community district, a weight was applied to bring the adult population of the community districts into their correct balance for the city as a whole. The results of the weighting scheme are presented in the table on the following page.

The electronic dataset was analyzed using the Statistical Package for the Social Sciences (SPSS).

Table 72: Weighting Table

Tuble 72. Weighting Tuble								
Characteristic	Population Norm (2021 ACS)	Unweighted Data	Weighted Data					
Race and Ethnicity								
Non-Hispanic White	31.9%	39.1%	34.4%

Appendix B: Questionnaire and Survey Materials

The following pages contain a copy of the survey materials.

Dear New Yorker -

We want to hear from you! Your household has been randomly selected to complete a survey about quality of life in your neighborhood and the quality of City government services. Complete the survey online using the link below, on your phone by scanning the QR code on the flip side, or on the paper survey that will be sent to you next week. Your responses will be completely anonymous. Thank you for helping all New Yorkers know how the City is doing!

iQueremos escuchar de ti! Su hogar ha sido seleccionado al azar para participar de una encuesta sobre la calidad de los servicios de la ciudad de Nueva York. Puede completar la encuesta -en su idioma-en línea utilizando la dirección de internet en el recuadro, en su teléfono escaneando el código QR que está del otro lado de la tarjeta, o -en inglés- en la encuesta en papel que se le enviará la próxima semana. Sus respuestas serán completamente anónimas. iGracias por ayudar a todos los neoyorquinos a saber cómo le va a la ciudad!

我們希望聽到您的意見!您的家庭已被隨機選中填寫一份關於您居住社區生活品質和市政府服務品質的調查。您可以使用下面的連結或在手機上掃描背面的二維碼,以您的語言線上完成調查,也可以在下周寄給您的紙質調查中以英語完成。您的回答將是完全匿名的。感謝您幫助所有紐約市民瞭解本市的運作情況!

September 2023

Dear New Yorker:

Your household was randomly selected to participate in the **NYC Resident Survey**! We at the nonpartisan, nonprofit, independent Citizens Budget Commission are doing this survey to give New Yorkers the opportunity to tell the public and the City how things are going in their neighborhood and what should be improved.

Filling out this short survey gives you the opportunity to rate New York City services and how you view the quality of life here. Your feedback—especially as the City has been recovering from the pandemic—will be pivotal in charting a course for the future.

Your responses will be completely confidential and anonymous. NO private information will be given to the public, the City, or anyone else. Responses will be reported in summary form only, and you'll see the results in the news this winter!

A few important things to make sure we get this right:

- The survey should be completed by a person age 18 or older. If there is more than one person age 18 or over in the household, choose the one who most recently had a birthday (regardless of their age) to complete the survey.
- You may complete the attached questionnaire and return it by mail in the enclosed postage-paid envelope, or you can complete the survey online using the link below or by scanning the QR code.

Survey link:	Survey QR:	
https://polco.us/xxplaceholder		

If you have any questions about this survey, please contact Ana Champeny (212-279-2605 ext. 329/survey@cbcny.org) or go to www.cbcny.org/survey.

Thank you for taking the time to help your neighbors and your City!

Sincerely,

This way, the person

is also randomly

selected.

within your household

Andrew Rein

President, Citizens Budget Commission

The Citizens Budget Commission is a nonpartisan, nonprofit think tank and watchdog working to achieve constructive change in the finances, services, and policies of New York City and New York State government.

iSu hogar fue seleccionado al azar para participar en la Encuesta de Residentes de la Ciudad de Nueva York! Completar esta breve encuesta le brinda la oportunidad de calificar los servicios de la ciudad de Nueva York. Puede devolver la encuesta por correo en el sobre con franqueo pagado adjunto o puede completar la encuesta -en su idioma- en línea utilizando la dirección de internet al pie de página o en su teléfono escaneando el código QR.

您的家庭已被隨機選中參加紐約市居民回饋調查!完成這份簡短的調查讓您有機會對紐約市的服務評分。您可以用隨附的已付郵資信封將調查寄回,也可以經由信件頁面底部的網址或在手機上掃描二維碼,以您的語言線上完成調查。

您的家庭已被随机选中参加纽约市居民反馈调查!完成这份简短的调查让您有机会对纽约市的服务做出评价。您可以用随附的邮资已付信封将调查寄回,也可以通过信件页面底部的网址或用手机扫描二维码,用您的语言在线完成调查。

Complete the enclosed survey and tell us how you think NYC is doing!

Dear New Yorker -

Your household was picked for a rare opportunity to provide feedback on quality of life and government services in NYC. Please don't let this opportunity slip by. Your responses will be completely anonymous. Complete the survey online using the link below, on your phone by scanning the QR code on the flip side, or on the paper survey that you received last week. Thank you in advance for your feedback!

Su hogar ha sido seleccionado al azar para participar de una encuesta sobre la calidad de los servicios de la ciudad de Nueva York. iNo deje pasar esta oportunidad! Sus respuestas serán completamente anónimas. Puede completar la encuesta -en su idioma- en línea usando la dirección de internet en el recuadro, en su teléfono escaneando el código QR en el otro lado de la tarjeta, o -en inglésen la encuesta en papel que recibió hace unos días. iGracias de antemano por sus comentarios!

您的家庭已被隨機選中,對紐約市的生活品質和市政府服務提供回饋。請別錯過這次機會。您的回答將是完全匿名的。您可以使用下面的連結或在手機上描背面的二維碼,以您的語言線上完成調查,也可以在下周寄給您的紙質調查中以英語完成。提前感謝您的回饋!

您的家庭已被随机选中,对纽约市的生活质量和市政府服务提供反馈意见。请别错过这次机会。您的回答将完全匿名。您可以使用下方链接或用手机扫描背面的二维码,用您的语言在线完成调查,也可以在下周寄给您的纸质调查中用英语完成。对您的反馈意见提前表示感谢!

Ваша семья была выбрана по жребию для заполнения опроса о качестве жизни и государственных услугах в Нью-Йорк Сити. Не упустите эту возможность. Ваши ответы будут полностью анонимными. Вы можете заполнить опрос по интернету на вашем языке по ссылке ниже, или с помощью телефона, отсканировав QR-код на обороте, или по-английски, заполнив печатный опрос, который вам пришлют на следующей неделе. Заранее благодарим вас за ваши отзывы!

Yo te chwazi kay ou a owaza pou bay opinyon sou kalite lavi ak sèvis gouvènman an nan vil Nouyòk. Tanpri pa kite opòtinite sa a pase. Repons ou yo pral konplètman anonim. Ou ka ranpli sondaj la sou Entènèt nan lang ou lè w itilize lyen ki anba a, sou telefòn ou lè w eskane kòd QR la sou lòtbò a, oswa an Angle nan sondaj sou papye yo pral voye ba w semèn pwochèn. Mèsi davans pou fidbak ou!

NYC-এ জীবনযাপনের মান ও নগর সরকারের পরিষেবাগুলির মান সম্পর্কে মতামত জানানার জন্য আপনার পরিবারকে অপরিকল্পিতভাবে বেছে নেওয়া হয়েছে। অনুগ্রহ করে এই সুযোগ হাতছাড়া করবেন না। আপনার উত্তর সম্পূর্ণরূপে বেনামী থাকবে। আপনার ফোন থেকে উল্টোদিকের QR কোড স্ক্যান করে, নীচের লিঙ্ক ব্যবহার করে আপনি নিজের ভাষায় অনলাইনে এই সমীক্ষা সম্পূর্ণ করতে পারবেন, অথবা পরের সপ্তাহে আপনাকে পাঠানো সমীক্ষাপত্রে ইংরাজি ভাষায় নিজের উত্তর জানাতে পারবেন। মতামত জানানোর জন্য আগাম ধন্যবাদ!
